

CURRENT PROJECTS WE SUPPORT

We focus on vulnerable women and children because we have seen the genuine, lasting transformation that can result. Here is a partial list of our projects we are supporting through December 2018.

Local Mission

New Initiatives: Twice a year we review applications for New Initiatives in Ontario and Quebec. We are proud to support many great projects that are led by women and offer the love of Christ. For example, we have supported a program for respite care for families of children with disabilities.

Leadership development: We regularly give out small bursaries for women who have training opportunities. And we assist women to attend events such as our annual conference.

Advocacy

Rescue against human trafficking: In November, we will raise funds for an International Justice Mission Canada rescue in the Dominican Republic. See the September and November issues of *live* magazine for full details. Information is also posted on our website.

Indigenous work: We support various projects initiated by Indigenous women. We have also supported a number of Christian conferences that work toward reconciliation.
